Beceiver Grant Formally Turns Over the Property to President Vreeland of the Metropolitan-Transfer Made on a Trolley Car-Work of Paying the Debts Has Begun. Former Receiver Hugh J. Grant of the Third Avenue Railroad Company surrendered the property of that corporation yesterday at 11 o'clock to President Vreeland of the Metro politan Street Railway Company, in accordance with the order of Judge Lacombe discharging the receivership, because of the solving of all financial problems of the Third Avenue by its 999-year lease to the Metropolitan. The formality of turning over the

property occurred on a Third avenue car at the Post Office loop, because the law requires that a receiver's surrender of property shall take place on the premises. Adrian II. Larkin of counsel for the Old Colony Trust Company was with Mr. Vreeland and Mr. Grant when they got aboard the car. Mr. Grant said:

"In pursuance with the order of the Court, granted on May 23, vacating the interlocutory order and discharging the receiver, and having received your affidavit that you have deposited the sum of \$23,000,000 with the Morton Trust Company, I now formally resign the Third Avenue Railroad to you."

Mr. Vreeland replied: "I accept it, sir, and congratulate you on your work as receiver—the shortest receivership on record."

The work of paying the debts of the Third Avenue Company began yesterday at the office of the Morton Trust Company. I twas stated in Wall street yesterday that Kuhn, Loeb & Co. have paid the Morton Trust Company for the \$25,000,000 bonds of the Third Avenue Railroad Company taken by them two checks for something more than \$17,000,000 each, one drawn on the National Bank of Commerce and the other on the National City Bank. The checks did not pass through the Clearing House yesterday and one at least is not likely to, as the Morton Trust Company has an account at the National Bank of Commerce, which is its Clearing House agent.

It is believed that these are the largest property occurred on a Third avenue car at

to, as the Morton Trust Company has an account at the National Bank of Commerce, which is its Clearing House agent.

It is believed that these are the largest checks that have changed hands in this city, certainly in late years. A check for more than \$16,000,000 for New York city bonds was paid by Kuhn, Loeb & Co. to the Comptroller a few years ago. A check for more than \$13,000,000 passed through the Clearing House in 1897, which had been drawn by the Reorganization Committee of the Union Pacific Railroad and deposited in the National City Bank to the order of the Government.

A decision is expected at Ottawa soon and the statement is made here that the trust fears in addition to the loss of the Peoria plant the de-cision will bring the title to other Illinois plants into question. It is understood here that a con-ference of officials of the trust is being held and that reorganization will be effected to take over the properties of the present trust.

Two Cents a Mile for Party Fares.

The Michigan Central Railroad has bee named as a complainant against the Nickel Plate-Lackawanna combination in the matter of applying reduced party fares to steam-hip applying reduced party fares to steam-hip business. O. W. Ruggles, general passenger agent of the Michigan Central, said yest-orday that his company had not made any formal complaint, but had merely furnished certain facts to the Central Passenger Committee. The Joint Passenger Committee, which meets here on June 6, will take up the subject simply as it comes from the Central Passenger Committee. A resolution will probably be adopted amending the rule relative to party fares so that such party fares shall be fixed at the net rate of two cents a mile for parties of ten or more. This will practically abolish the sliding scale of party fares.

THE ROLL STATE & THE PARTY OF T

BLACKBURN PACES ABOUT. Issues an Address Opposing the Goebel Elec-

tion Law. LOUISVILLE, KY., May 24. The address to the campaign Blackburn upheld the Goebel law in nearly every speech he made. In his address Blackburn says:

"To assume that the Democratic party would

"To assume that the Democratic party would enact or keep on the statute books an election law, without proper amendment, after it had been demonstrated that such law was inadequate for the purpose designed, is to assume that the party, either by reason of the men it nominates for office, or of the principles it advocates, is afraid of the people and cannot and should not expect their support."

Blackburn then offers suggestions for numerous amendments which would prevent the centralization of power which at present exists. He recommends a "return by constitutional amendment" to the form of viva voce voting as the best method of preventing frauds, favors the election of United States Senators by direct vote of the people, and urges the coming Democratic State Convention to declare for the abrogation of the two-thirds rule. He also suggests that the party doors be thrown wide open for the return of all who have left it in recent years.

MIDLEGE AGGRIEVED.

The Alderman-at-Large Says Mayor Hoos Didn't Keep Faith With Him.

When the appointments of Allan L. McDermott as Corporation Counsel and John Wahl | Baltimore and Cumberland Valley R. R. Ex. Co. Queen as Corporation Attorney were submitted to the Jersey City Board of Finance yesterday, William F. Midlege, who is a member of the board by virtue of his office as Alderman at-Large, remarked:

"Before voting on the approval of these two "Before voting on the approval of these two appointments I wish to state that Mayor Hoos broke faith with me in the appointment of Corporation Attorney. He offered the place to me. After long and careful consideration I consented to accept it, but instead of appointing me he appointed Mr. Queen. I was not a candidate for the office, but consented to accept it at the Mayor's solicitation."

Mr. Midlege's statement caused a mild sensation. He was a candidate for Police Justice, but the Mayor appointed his own son, and, it is understood, that Mr. Midlege got the offer of the Corporation Attorneyship as a consolation. It was expected that he would get the place up to an hour before the appointment of Mr. Queen was announced. Mr. Midlege voted with his colleagues to confirm the appointments.

SUIT POR SUICIDE'S INSURANCE. Frank M. Brady's Executor Demands \$100

000 From the Equitable. Charles A. Decker, as executor of the estate of Frank M. Brady, has begun an action against the Equitable Life Assurance Society to recover \$100,000, the amount of a policy of insurance sesued to Brady in favor of his wife. The policy was issued on Sept. 6, 1899, and Brady paid the first premium, amounting to \$3,031. He committed suicide in his office in the Lord's Court Building on William street, Manhattan, on Oct. 10, 1899. The company declined to pay on the ground that the policy was issued in accordance with an agreement that "self-destruction, sane or insane, within one year from the date of the issuance of the policy is a risk not assumed by the society." The company allege, on information and belief, that Brady procured the policy with the intent to commit suicide.

Frank M. Brady was a stock broker, and he committed suicide by shooting himself in the head. He lived with his wife at 9 Hancock street, Brooklyn, and after his death she went to live with her mother at 231 Lincoln place, where she died from gas asphyxiation on Feb. 13. the Equitable Life Assurance Society to recover

Josephine Bennett Shoots Herself.

Mrs. Josephine Bennett shot herself last night at 122 West Ninety-first street. In her flat at the time were her sister, Mrs. Horton, who said she lived in the house, and Albert Abeel, a visitor. Mrs. Horton said that all three were in the dining room laughing and talking when Mrs. Bennett got up and walked into the bedroom, shut the door behind her and shot herself in the head. She may get well. The pistol was silver-plated and pearl-handled.

Lost on the Races and Killed Himself.

BROWNSVILLE, Tenn., May 24.—The dead body of Major L. A. Clarke, ex-Mayor of the neighboring town, Jackson, Tenn., a leading West Tennesseean, was found floating in the river at Louisville several days ago, but was not identi-ried until to-day when Chief of Police Gaston of Jackson saw it. Clarke lost money on recent races in Memphis, went to Louisville, and on May 8 was found in the river with a builet in his head, a pistol being clutched in the hand.

PINANCIAL AND COMMERCIAL.

THURSDAY, May 24. The stock market was unsettled to-day by the failure of one of the larger brokerage concerns on account of its extensive and unsuccessful ventures in the cotton market. Although the suspension was not aunounced until after midday, the atmosphere of the Stock Exchange was, as is generally the case before a disaster be-comes known, saturated with rumors of the impending event. The selling was not very heavy, but it was ieffective, because of the absence of a demand for stocks either for investors, the speculative public, or the short interes While it was commonly understood in Wall Street that the embarrassment of the firm referred to was wholly owing to commitments other speculative lines than the stock market, the announcement of the failure, owing to the unsettled condition of speculative sentiment, created an undue impression and was followed by more general liquidation by commission houses than has been noted for a long time past. The complications resulting from the failure

are likely to be numerous because of the large number of branch offices and correspondents of the firm, all of whom were engaged in securing and stimulating speculative accounts. The ventures of its clients were probably as extensive in the grain and cotton markets as on the Stock Exchange. As a matter of fact, its business on the Stock Exchange, in common with that of practically every other brokerage house, has been curtailed of late by untoward speculative conditions. The transactions in stocks were on a larger scale than for severa days past and were fairly well distributed. Sugar Refining again held the first place in respect to activity and after a decline of nearly 4 points from the highest price, railied to an extent that left it only 114 per cent. lower than yesterday. Other noteworthy net declines were sustained by American Steel and Wire, Tennessee Coal and several of the less active issues. The recovery in values after the suspension had been announced, and even while considerable amounts of stocks were being brought in and sold out "under the rule," indicates that the immediate effect of the event had been pretty thoroughly discounted in the early dealings The closing of contracts "under the rule" wa the most extensive that has ever taken place on the Stock Exchange, and resulted chiefly from the operations of the firm in borrowing and lending stocks. London was not an appreciable factor in the

market, although the Bank of England lowered its rate of discount ½ per cent. to 3½ per cent The reason for this is that it was a holiday or the Continent and the celebration of the Queen's birthday restricted business on the London Stock Exchange. The closing was dull and featureless. New York Stock Exchange Sales May 24.
